The health and safety of our campers is our #1 priority. In light of the COVID-19 pandemic, we think it is important that you understand our efforts to manage your campers health and safety so that you can make an informed decision. We are focused on taking all reasonable measures to prevent the spread of COVID-19 at Beulah Beach. We have strengthened our standard cleaning procedures, while adding increased frequency measures for things such as wiping down common touch points, dining hall areas, and activity equipment. Additionally, we have taken measures to monitor and address symptomatic campers by introducing this pre-camp health screener, daily temperature checks, and protocols to isolate, confirm, respond, and remove any camper or staff with suspected COVID-19. You can view more measures we're taking by visiting bbeach.org/health. This situation continues to change daily, and as such, we will adapt and adjust our protocols and procedures as we follow the guidance provided by the CDC and the Erie County Health Department, in our efforts to help keep our campers, staff, and guests safe. Ultimately, the choice for your child to attend summer camp at Beulah Beach is a personal one, and you are in control. If you are uncomfortable with the risks of COVID-19 in a summer camp setting, having to travel to Beulah Beach, or having your child interact with our staff and other campers, we hope that you will continue to partner with us in prayer and come to one of our camps in 2021!
